EXPERIENCE

JP Morgan Chase, Bengaluru: Software Engineer III Dec 2024 – Present

- Integrated the payment borrow system into the Electronic Payment System's fraud detection workflow, enhancing real-time fraud signals and improving detection accuracy
- Developed and implemented mule score enrichment in the fraud detection engine, reducing fraudulent transactions by **$120K annually**
- Migrated multiple services to Terragrunt-based infrastructure and modernized CI/CD pipelines, streamlining deployment processes and improving reliability

Godaddy, Remote: Software Engineer III Sep 2022 – Nov 2024

- Designing and implementing a rule-based risk evaluation system to detect and mitigate frauds, ensuring enhanced security for the organization's operations
- Collaborated with external vendors to implement robust fraud detection strategies, leading to a **daily reduction of $10,000** in International Revenue Share Fraud (IRSF) incidents
- Spearheaded infrastructure modernization by updating EKS from version **1.25 to 1.29**, resulting in improved system stability and security

Godaddy, Remote: Software Engineer II Jul 2021 - Aug 2022

- **Reduced fraud losses by $60K/month** by developing REST endpoints to detect velocity-based payment fraud and integrating with an analyst dashboard
- Proactively monitored and refined thresholds to effectively mitigate emerging fraud trends, resulting in a reduction of new fraud incidents
- Reduced sign-in evaluation latency from **350ms to 60ms** by optimizing login record ingestion into the data store

Practo, Bengaluru: Software Engineer II Dec 2020 - Apr 2021

- Led a ground-up redesign of Marketplace's mobile web experience, resulting in a **16% increase** in CTR
- **Reduced TTFB by 10%** and development loop time by migrating multiple legacy REST endpoints to GraphQL with zero downtime

Practo, Bengaluru: Software Engineer Oct 2019 - Dec 2020

- Implemented dynamic meta content generation for thousands of pages within the marketplace, resulting in a significant increase in SEO ranking

Practo, Bengaluru: Software Engineer Intern May 2019 - Oct 2019

- Redesigned Practo's mobile homepage and **increased test coverage** for the practo home from **5% to 80%**

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Golang, C++
Libraries / **Frameworks:** Spring Boot, Node.js, React.js
Tools / **Technologies:** AWS EKS, DynamoDB, SQL, Kubernetes, Docker, SQS, Kinesis, RDS, Redis

EDUCATION

B.TECH, Computer Science Aug 2015 - Jun 2019
Guru Gobind Singh Inderprastha University, Delhi
University School of Information, Communication and Technology
Relevant coursework: Algorithm Design and Analysis, DBMS, Object Oriented Software Engineering

ACHIEVEMENTS

- AWS Certified Solutions Architect - Associate [Certification] July 2023
- Secured 6th and 14th positions in the ACM-ICPC 2018 India regionals. [ACM ID] Dec 2018
- Recognized as the recipient of the Innovation Award for developing a cost-effective IoT device capable of detecting hazardous gases
